Summary

Problem-solving enthusiast with a passion for building real-world solutions that create meaningful impact. Quick learner, self-driven, and a collaborative team player, eager to contribute to high-impact, innovative software projects. Skilled in full-stack web development, AI-assisted tools, and modern technologies.

Education

Dr. D. Y. Patil Institute of Technology, Pimpri, Pune **2024 – 2027**
B. E. in Computer Engineering *CGPA: 9.25*

S.S.V.P.S. , B. S. Deore, Polytechnic, Dhule **2021 – 2024**
Diploma in Computer Engineering *92.86%*

Skills

Programming Languages: C, C++, Java, Python, JavaScript

Frontend: React, HTML, CSS, Bootstrap, Tailwind CSS

Backend: PHP, Node.js, Express

Databases: MySQL, MongoDB, Supabase

Dev Tools/IDEs: Git, GitHub, Postman, VS Code, Cursor, Canva, Figma

Soft Skills: Problem-Solving, Leadership, Team Management, Communication, Collaboration, Time Management

Coursework: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems (OS), Database Management Systems (DBMS), Computer Network (CN), Software Engineering

Projects

OrderEase – Restaurant Order Management System | *React, Tailwind CSS, Node.js, Express.js, MongoDB, Razorpay API, WhatsApp Cloud API* | GitHub | Live Project

- Engineered a **full-stack food ordering system** enabling customers to browse menus, place orders, and make payments through both the web app and WhatsApp.
- Integrated **Razorpay Payment Gateway** and developed a WhatsApp chatbot using the **WhatsApp Cloud API** to automate order placement, secure payments, and real-time status tracking through conversational messaging.
- Developed a **restaurant management dashboard** allowing staff to update order status in real time, manage customer history, and broadcast promotional messages via WhatsApp during offers or festive seasons.

DYP-DPU Procurement Management System | *React, Tailwind CSS, .NET* | GitHub | Live Project UI

- Served as the **primary frontend developer** in an **Agile environment**, designing and implementing modular, responsive interfaces for a **university-wide procurement and approval management system**.
- Built **role-based dashboards** for faculty, store, CPD, and management users using **React, Tailwind CSS, and Shadcn UI**, ensuring consistent UI/UX and seamless integration of **RESTful APIs** developed by the **.NET Core** backend team.
- Proposed **security enhancements** such as **QR-based document verification**, **dynamic watermarks**, and **OTP-based role approvals** to prevent misuse of digitally signed documents.

EZRooms – Rental Accommodation System | *HTML, CSS, JS, Bootstrap, PHP, Google Maps API* | GitHub

- Conducted a **user-focused survey** with students and property owners to identify gaps in rental platforms, shaping a solution tailored for real-world needs.
- Developed a **full-stack web application** with core modules like **authentication, role-based access, profile management, admin dashboard, and property search with filters**.
- Built a **responsive UI** with **Bootstrap & JavaScript** and integrated **Google Maps API** for location-based searches, enhancing user experience.
- Engineered a **scalable backend** in **PHP & MySQL**, ensuring reliable property data handling and efficient query performance.

Experience

Sumago Infotech Pvt. Ltd. **June 2023 – July 2023**
Web Development Intern (Remote) *Nashik*

- Gained hands-on experience in **full-stack web development** using **HTML, CSS, JavaScript, PHP, MySQL,** and **React.js**.
- Built **interactive and responsive UI components** using HTML, CSS, JavaScript.
- Optimized website **rendering time** and enhanced overall **performance and user experience**.
- **Collaborated with developers** to understand best coding practices, version control (**Git**), and debugging techniques.

Certifications

- **Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25)** — validated understanding of AI concepts, cloud infrastructure, and Oracle AI services.
- **Postman API Fundamentals Student Expert** — demonstrated proficiency in designing, testing, and documenting RESTful APIs using Postman.

Achievements / Accomplishments

- Top 5 Finalist in **CTAI Foundation AI/ML Hackathon 2025** at IIT Bombay for an AI/ML solution aiding construction teams in material estimation, reducing waste, and improving procurement.
- **Led a 3-member team** for Project EZRooms, overseeing **project planning, task delegation,** and **system design**, ensuring **on-time project completion**.
- **Solved 150+ problems on LeetCode** using **Java**, focusing on **Data Structures & Algorithms (DSA)** to strengthen problem-solving and coding proficiency.
- Secured **1st place in QUIZBATE 2025**, a competitive quiz and debate event on technical and AI-driven topics, organized by S4DS club at DYP-DPU University.
- Designed and developed the **official website for the Team Envisioners Club** at DYP-DPU, improving the club's online presence and event visibility.
